

# METARIX

## LIGHT PAPER

Metarix is a blockchain enabled metaverse platform enabling users to live a virtual life by playing VR games, buying virtual lands and investing in virtual products. Metarix is a blockchain based ecosystem enabling developers to develop and connect their AR-VR virtual products, games etc with the Metarix Blockchain

Metarix offers multiple digital virtual lands like Bitcoin Business Park and Shiba Shopping District

Metarix offers NFT marketplace to sell in-game items and digital art

Metarix offers developer SDKs and game maker platform to enable developers to easily build blockchain based games.

## TOKENOMICS

As an ecosystem of metaverse, Metarix has many advantages to tech enthusiasts, tech investors, influencers and every person interested in metaverse, blockchain, NFTs and cryptocurrency. Metarix also provides huge opportunities to game developers and game enthusiasts.

MTX is developed on Binance Smart Chain with version BEP20. The reason behind choosing BSC is that currently it is one of the top blockchains to be used by people and it has a very low gas fees. The blockchain is widely popular and has a range of dapps available which is beneficial for the growth of MTX token.

## TOKENOMICS

MTX token will be allocated to participants to help the token grow rapidly and competitively. Token allocation for MTX token is as follows:

Total Tokens: 1.2B

Distribution Participant	Token Allocation (in %)
Staking	6
Play to earn	10
Marketing	8
Team	5
Development	4
Token Sale	15
Advisors	2
Launchpad	10
Reward Campaigns	10
Founders	5
Reserve	10
Exchange Listing	15

# THE ROADMAP
